

Littering, a bigger problem than you think

TOGETHER, WE KEEP OUR COMMUNITY CLEAN AND SUSTAINABLE

Litter on streets and in streams blocks water drains and causes flooding during rainstorms. Drains should be kept clear to prevent water build up.

**Clean streets =
more appealing neighbourhood.**
Litter lowers property value.

MICROPLASTICS

Litter leads to
injuries, diseases,
and contaminated
food sources.

Our litter affects their lives.
Protect wildlife and
aquatic ecosystems.

Stop littering today!
Do your part to keep our beautiful country clean.
